

WORKSHOP EQUINE DENTAL CARE

MODULE PT EQUINE DENTAL CARE USING MOTORIZED EQUIPMENT

Date : Wednesday, November 6th 2013

Specific Veterinary Technologies bvba
Bredestraat 65

1880 Kapelle-op-den-Bos

Mobile: +32 471 06 76 76

Tel/Fax: +32 15 63 69 97

Ondernemingsnummer: BE 0822.265.832

GOAL:

Teaching or improving equine dental care using motorized equipment.

Live horses will be treated under the supervision of experienced teachers.

There is plenty of opportunity for interaction and feedback.

At the end of the course, delegates will be able to use motorized tools in a correct and safe way to deal with all commonly encountered abnormalities of wear of the equine dentition.

INSTRUCTORS: Prof.Dr. Lieven VLAMINCK (Ugent, vakgroep heelkunde)

Dr. Chris HANNES (www.hanneschris.be)

WE COACH YOU PERSONALLY!

COURSE AND PROGRAM:

-What's the benefit of using motorized equipment over manual floating? The safe and proper use of different tools will be demonstrated and can be tested by the delegates. Delegates will be able to deal with a variety of dental pathologies level with their personal practical skills.

-State of the art equipment will be at the disposition of the delegates to work with. Headstands, intra-oral light, head-light, new wolftooth elevators, ... will be demonstrated.

You're invited to bring your own equipment with you.

-Basic knowledge of equine dental care is essential. The book "equine dental care" by Chris Hannes will be sent digitally to the participants before the course.

-Maximum number of participants: 8 veterinary surgeons

-Course language is Dutch
